---

To Whom it May Concern,

I have recently been informed of Republic Waste's misguided proposal to inject wastewater into the ground in my community of Coopersville MI. I must object to this plan in the strongest possible terms. One of the reasons I moved to this community, as opposed to places up near Rockford, was the many issues with groundwater contamination that they have been dealing with in that area.

We have a beautiful, safe and clean community here, let us PLEASE not let that get destroyed!
